TITLE : ATMOSPHERIC PURIFIER

ABSTRACT : PURPOSE: To purify the ambient air of a vehicle as well as to solve a problem of atmospheric pollution.

CONSTITUTION: A purifying means 1 consists of an inlet port 2, a filter 3, a purifying processor part 4, a blower 5 and a discharge port 6, and it is installed in a specified position in a vehicle 8. The blower 5 inhales ambient air from the inlet port 2, leading of into the purifying processor part 4 which processes the ambient air into purification. The discharge port 6 discharges the purified air to the outside.
